

➤ IMPALA LOGISTICS CONTAINER YARD

MEXICO, MANZANILLO-COLIMA

Located 300 meters from the port of Manzanillo, Impala Terminals Mexico's 42,000M² logistics container yard can receive, deliver and store both fully loaded and empty containers.

➤ 100.000 TEUs

Annual capacity.

➤ 675m²

Container maintenance and repair workshop in line with IILC standard.

➤ Manoeuvre service for import/export

Advanced coordination of container movements is available through the use of a website, giving clients full visibility of the whereabouts of their containers at any given time.

➤ Short distance between cargo terminals

Delivery cycle – reception from:

- North zone: 1 hr 40 min
- South zone: 1 hr 10 min

➤ **24 hour CCTV surveillance**

➤ **36 connections**

For refrigerated containers.

➤ **Environmental impact**

Through the use of LED lighting and solar panels, Impala Terminals Mexico is able to reduce the carbon footprint of its operations, generating a more positive impact on the environment and responding to climate change needs.

➤ **Delivery efficiency**

Two entry lanes and two exit lanes to facilitate containers transportation.

Three internal express lanes that ensure an efficient inspection process.

➤ **Specialist equipment**

Empty handler, reach stacker and a forklift truck.
